On June 26th, 2018, ROBLOX CEO John Hanke made an announcement on Twitter that the company would be removing the ability to create avatars for users within games and requiring new avatars to be created instead. Once this update was implemented however, users were able to create new models based on existing ones and preserve them as a template which they could then upload into games alongside their original avatar. This update was to lower fraud within the site with copyright infringement and promoting copyright infringement by bypassing game mechanics by allowing users to create avatars of other users' games.[21]

Weebly Pages later went on to become Pikazo. ROBLOX is the first game that has allowed players to have voice chat. [121] ROBLOX is the first online game that allowed players to invite others into their world and even allow them to build things like they used to in PC games. [122] The next games that would allow users to invite others into their worlds were Habbo Hotel where they had their FriendBook and later on also added a FriendChat system in December of 2011, Club Penguin where you could invite fellow penguins into your world, and Mario8 since 2014. Builders Club Premium can be used in games greatly increasing the amount of Robux and/or XP a player earns by a given amount. If used, then Builder's Club is required to play those games. There are two types of premium features: content premium and currency premium. Content Premiums typically involves a single item or feature that changes the game mechanic, such as more life points and/or more room to build, or increased maximum health for monsters. Currency Premiums usually involve the addition of new items to the game that are only available through favorable conditions (for example, allowing players to purchase a specific item for Robux). Some Currency Premiums can also require membership in Builders Club.

Rated 5 out of 5 by Anonymous from I love this game! I love this game. It has a lot of new additions that make it so much better than the past. The only reason why my great reviews are ending is because roblox takes away your reviews at some point even if you've been playing for 2 years and it makes me sad!
